At least one parent/guardian must be included in our mailing list for team updates and information.

Do you have any conflicts that would prevent you from attending practice on Tuesday or Thursday?
If so, please explain how you propose to work around these conflicts.

Robotics Team Parent/Student Contract

- Attendance at practice is mandatory. Students may be excused with prior arrangements made with their team captain and coaches. Like joining a sports team, robotics requires commitment, discipline and dedication from all involved.
- Students who do miss a practice have no say in decisions made while they were absent.
- Occasionally extended practices or additional workdays will be scheduled as needed to ensure robots are ready for competitions. Details of such events will be posted in advance and discussed at team meetings.
- Students will be expected to maintain ALL grades at no lower than a C, with at least an S in conduct and work habits. Any student with a grade lower than a C, or a conduct/work habits grade of U may be dismissed from the team.
- While attending a robotics meeting, team members must maintain a certain level of work ethic. Low work productivity during time spent at robotics is grounds for removal from the team. If team members find themselves idle while at a meeting, they may either find a useful task or sign out and leave. It is expected that all members utilize their limited time in robotics wisely.
- Team members must show respect to their teammates, coaches, mentors and equipment at all times. Any team member that causes willful destruction to robotics equipment will be dismissed from the team.
- I understand that while Robotics team build sessions are fun, participation requires a high level of mental focus and energy. I will contribute at the highest level even after a long day at school.
- I understand that there are many roles on the team and that I may not have “hands-on” the robot every day, especially during my first year on the team.
- Robotics' members must wear safety goggles, required at all competitions! The team has a few pairs available as backup, but students must purchase their own pair so they fit and are comfortable.
- Students are not to be using their cell phones during practice except for robotics related activities such as photos, research, and team communication. Excessive texting or playing games is not permitted during robotics.
- Competitions occur at various locations on Saturdays. Students/Parents will need to provide transportation to and from these events. We recognize that students have many obligations; however, students who make the team are expected to attend these events.
- The program will be extended for Teams that qualify for the State and/or World Championships.
 - Virginia State Championship will be held March 6-7 in Doswell, VA
 - World Championships will be held April 22-25, 2020 in Louisville, Kentucky.
- If the team earns a spot to the World Championships, each student is responsible for paying for their trip costs (travel, hotel and food). A reasonable estimate is \$1200 per student. Fundraising may be done to reduce the out of pocket expenses for the trip.
- Activity fees are \$100 per year; this will go towards the registration fees for competitions and materials needed to support the team. Members will also need to purchase a team t-shirt ~\$15 which is required for all events. The activity fees and t-shirt sales will be collected in the fall and are non-refundable if the student leaves the team for any reason.
- Community Outreach is a very important part of the robotics program, as a member you will be asked to:
 - Volunteer at local robotics events.
 - Mentor elementary & middle schools.
 - Complete online challenges.
 - Participate in community outreach.
 - Actively pursue sponsorships & fundraising.
